PROFESSIONAL SUMMARY

A reliable and enthusiastic entry-level digital support professional with strong spoken and written English, good problem-solving skills and the ability to communicate clearly with customers and team members.

I can support businesses with social media management, customer enquiries, online research, administrative tasks and basic website-related work. I am currently learning web development and am eager to join a company where I can contribute, receive guidance and develop practical experience while working.

I learn quickly, take instructions seriously and remain calm when solving problems. I am open to remote jobs, internships, volunteer opportunities and junior roles that provide room for growth.

CORE SKILLS

- Social media page management
- Content planning and post scheduling
- Writing captions and simple social media content
- Responding to comments and direct messages
- Customer service and customer communication
- Email and live-chat support
- Online research
- Data entry and information organisation
- Calendar and task management
- Basic virtual assistance
- Problem-solving
- Clear written and spoken English
- Team communication
- Time management
- Attention to detail

- Willingness to learn new tools
- Basic web development knowledge

RELEVANT CAPABILITIES

Social Media Support

- Able to organise and manage social media pages
- Can prepare simple content calendars
- Can write clear and engaging captions
- Can schedule posts and maintain a consistent posting routine
- Can respond politely to comments, messages and customer enquiries
- Can research content ideas, trends and competitors
- Can use Canva or similar tools to create simple visual content

Customer Support

- Communicates clearly and professionally
- Listens carefully to customer concerns
- Remains patient when handling complaints or questions
- Can explain information in a simple and understandable way
- Can follow up on unresolved customer issues
- Can identify problems and refer technical issues to the right person
- Comfortable supporting customers through email, chat and social media

Virtual Assistance

- Can carry out online research
- Can organise files, documents and information
- Can assist with email management
- Can update spreadsheets and enter data accurately
- Can help schedule meetings and organise tasks
- Can follow written procedures and meet deadlines
- Comfortable learning new digital tools and platforms

PRACTICAL PROJECTS

Social Media Practice Project

Created a sample social media plan for a small business, including content ideas, captions, posting dates and customer-engagement responses.

Customer Support Practice Project

Prepared professional sample responses for common customer situations, including delayed orders, complaints, refund requests and account-access problems.

Digital Administration Practice Project

Created sample task trackers, customer-information sheets and weekly work reports to demonstrate organisation and attention to detail.

Web Development Learning Project

Currently learning the foundations of web development and building an understanding of how websites work, including basic page structure, content updates and simple troubleshooting.
