## PROFILE

- Frontend developer building responsive, accessible websites with HTML5, CSS3 and JavaScript, with additional project experience in React, backend development and databases.
- Developed four portfolio projects spanning a restaurant website, creative services website, productivity landing page and personal portfolio.
- Currently completing a frontend development internship at AppRo8 while working as a sales and marketing professional and instructor at New Horizons Computer Learning Center.

## TECHNICAL SKILLS & CORE COMPETENCIES

**Frontend:** HTML5, CSS3, JavaScript, React.js, responsive design, CSS Grid, Flexbox, accessibility.

**Development:** Git/GitHub, debugging, website deployment; backend development, databases and REST API fundamentals.

**Business & training:** Client communication, sales support, marketing, instructor skills and practical demonstrations.

## PROFESSIONAL EXPERIENCE

**Frontend Development Intern | AppRo8 | October 2026 - Present**

- Develop responsive web interfaces through internship projects, applying HTML, CSS and JavaScript to navigation, page layouts and interactive features.
- Built and deployed Velora, a productivity-platform landing page, with mobile navigation, service cards, testimonials and calls to action.

**Sales, Marketing & Instructor | New Horizons Computer Learning Center | May 2026 - Present**

- Support sales and marketing of training programmes, communicating course offerings and assisting prospective learners with enquiries.
- Serve as a computing instructor, delivering practical exercises, explaining technical concepts clearly and supporting learners during hands-on activities.

## PROJECTS

**Personal Portfolio | HTML5, CSS3, JavaScript**

- Built a responsive showcase for skills, projects and contact details; implemented mobile navigation, project grids and direct links to demos and source code.

**Savory Bites Restaurant | HTML5, CSS3**

- Created a four-page restaurant concept with menu, story and contact pages; used Grid, Flexbox and accessible markup for mobile, tablet and desktop layouts.

**ArtistryHeaven | HTML, CSS, JavaScript**

- Developed a creative services website to present the brand and its offerings through a structured, visually focused web experience.

**Velora | HTML, CSS, JavaScript**

- Designed a team-productivity landing page with a dashboard preview, clear navigation and prominent calls to action to communicate the product concept.

## EDUCATION

**BSc Microbiology** | Olabisi Onabanjo University | 2016-2022

**Availability:** Remote roles, freelance projects and agency work; available for US working hours.
