Portfolio: personal-portfolio-vg1y.onrender.com | GitHub: github.com/thebossman-tech

PROFILE

Junior frontend developer building responsive, accessible websites with HTML, CSS and JavaScript. Delivered a multi-page restaurant concept and a personal portfolio, with attention to clear navigation, mobile layouts and practical debugging. Learning React and backend fundamentals; eager to contribute to real client work and grow alongside an experienced team.

TECHNICAL SKILLS

JavaScript · HTML5 · CSS3 · Responsive Web Design · CSS Grid · Flexbox · Git/GitHub · Accessibility · Debugging · Website Deployment

React.js (foundational/project experience) · REST APIs (learning)

SELECTED FRONTEND PROJECTS

Savory Bites Restaurant Website

HTML5 · CSS3

- Built a four-page restaurant website with Home, About, Menu and Contact pages, consistent navigation and clear calls to action.
- Used CSS Grid and Flexbox for responsive layouts; added semantic markup, skip links, focus states, descriptive image text and reduced-motion support.
- Checked desktop, tablet and mobile layouts, then corrected image paths, HTML structure and layout issues.

Personal Portfolio Website

HTML5 · CSS3 · JavaScript

- Designed a responsive portfolio to present projects, skills, contact details and a downloadable CV.
- Created mobile navigation, project and skills grids, accessible links, and direct paths to live demos and source code.

EDUCATION & DEVELOPMENT

BSc Microbiology

Olabisi Onabanjo University | 2016–2022

Ongoing learning: JavaScript, React.js, backend fundamentals and REST APIs.

WORKING STYLE & AVAILABILITY

Clear client communication, attention to detail, independent problem-solving and willingness to learn from feedback. Open to junior roles, paid internships, agency projects and freelance website work.
